The user is asking for the name of the horse in the film "Dances with Wolves". "Dances with Wolves" is a 1990 film. The main character, John Dunbar, has a significant bond with his horse. I need to retrieve the name of this specific horse from my knowledge about the film. The black stallion that John Dunbar frequently rides is named Two Socks. While there is a wolf named Two Socks, the question specifically asks about "the horse". Two Socks is the widely recognized name for Dunbar's main equine companion.
