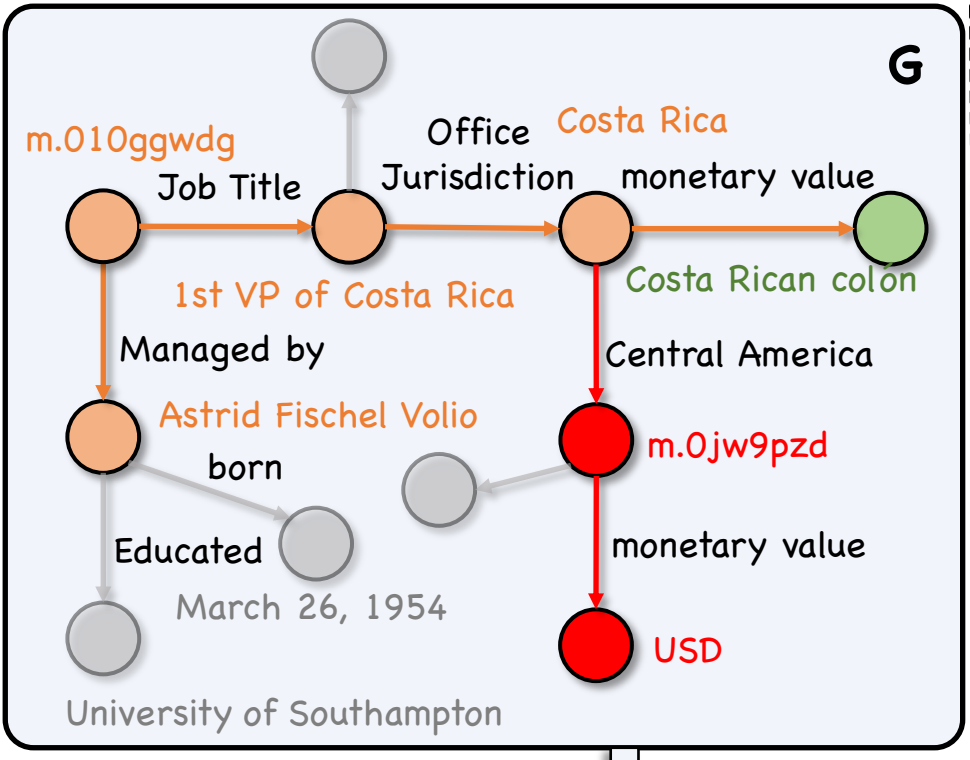
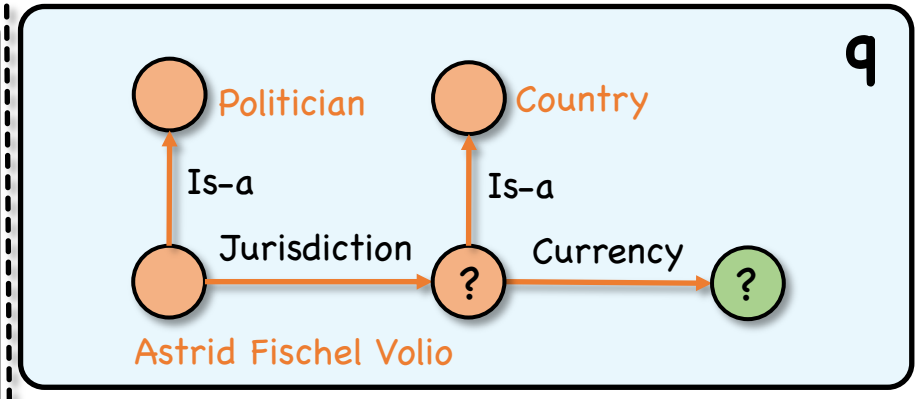
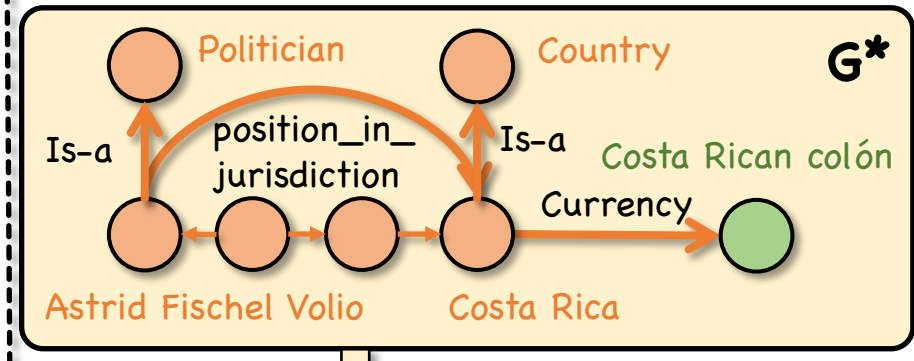
q : What is the currency in the governmental jurisdiction with office holder **Astrid Fischel Volio**?

Semantic Gap (Focus and Structure Mismatch) between Query (q) and Graph (G)







Focus Mismatch

Structure Mismatch

The vanilla graph focuses Astrid Fischel Volio's roles, birth, and education. I need to decide where to start. The query's structure on Jurisdiction and Currency conflicts with the graph's structure Managed by, Job Title, Office Jurisdiction, and monetary value. The meaning of Astrid Fischel Volio and m.010ggwdg is unclear.

A: The currency in the governmental jurisdiction of Astrid Fischel Volio, which is Costa Rica, is the United States Dollar (USD).

Focus Match

Structure Match

Based on the query-aligned graph, it is clear that the graph and query both focus on Astrid Fischel Volio's jurisdiction and currency. She is a politician, with m.010ggwdg as an official linked to Costa Rica via position_in_jurisdiction. Costa Rica's currency is the Costa Rican colón.

A: The currency in Costa Rica, where Astrid Fischel Volio holds office, is the Costa Rican colón (CRC).
